

Health Tech Innovations for Successful Business  
**PARTNERING DAY 2017**  
21 September, Graz

[www.partneringday.at](http://www.partneringday.at)

The goal of the International **Partnering Day 2017** is to develop and strengthen cooperation between innovative companies and university scientists in the area of **Health Tech Innovations**.

This event is being jointly organised by Styrian and Carinthian universities as part of the Centre for Knowledge Transfer South (WTZ Süd).

Scientists and companies will have the opportunity to establish contacts, present industrially-relevant scientific results and identify mutually-interesting areas of cooperation.

### **Broad platform from science and industry**

Researchers from Styrian and Carinthian universities as well as international companies are invited to participate. This format facilitates the discussion of a broad spectrum of topics in order to develop future cooperation. Furthermore, the Partnering Day offers networking opportunities for organisations, such as short oral presentations (pitches), a poster exhibition and personal bilateral meetings.

### **Companies profit ...**

... from the scientific expertise and knowledge brought by the universities. You are welcome to establish contacts with scientists from special fields of research, in order to efficiently foster product development. Present your expertise and communicate your research and technology requirements.

### **Researchers profit ...**

... from the opportunity to meet regional and international companies. Benefit from the opportunity to present your strengths and knowledge to companies. Submit your requests to strong partners from industry. During individual meetings you have the chance to interact face-to-face with industry representatives.
